About Us

We are a Framework approved, clinician-led agency, set up and run by clinicians for clinicians. We operate chiefly out of Central London, with national coverage, including Northern Ireland.

We strategise to ensure a continual, intelligent pipeline of medical professionals, including AHP/HSS and nursing staff groups, that we are able to dispatch into short and long-term locum contracts.

Globe Locums Master Vendor

Your internal recruitment teams feel the pressure. The responsibility for ensuring locum cover is hired, and in place where it is always needed, is immense.

Communicating with numerous agencies on a PSL is not only time consuming, but each provider offers a slightly different service, prices, and charge rate. The requirement to continually keep on top of this is a restrictive extra burden for your hiring managers and opens the possibility of errors and missing shift fills. This is an unnecessary burden for your team.

Globe Locums' Master Vendor solution provides:

- Guaranteed response times
- Handpicked managerial team to service your MV contract
- Regular Review meetings to suit
- Transport KPI reporting on GL and all suppliers
- Preferential, reduced permanent recruitment fees
- Ongoing evaluation of purchasing habits through interrogation, reporting & MIS
- Dedicated phone line and email
